

years of making impacts

Who we are?

Students for the Earth (affectionally called Sfe.) is a non-profit youth organization founded in March 2013. We are involved in environmental protection, charitable, humanitarian, cultural, arts and sports activities for the youth. We are completely a youth run group too and organize our events on zero or low budget possible as we want to make volunteering and social work accessible to everyone and more common.

Our motto is "Small Acts, Big Impacts" and we have been proving it since our inception. Visit www.mysfe.jimdo.com to know more.

We are opening Sfe. chapters in colleges and schools which will be independent Sfe. groups organizing similar events, etc at the school and college level. Visit our website to know more about this.
